Master Thesis Defense
Title of Master Thesis

1. In the 1880s, US-American culture changed its face profoundly. This registered in the so-called Progressive Movement that reflected contemporary ideas about social and cultural perfection and resonated strongly with the scientific theorization of the day.
2. The Progressive Movement also comprised the women's movement, and the Progressive reliance on science also registered heavily in the ways in which women fought for equal rights and suffrage. These arguments were strongly racialized.
3. Jane Addams' *20 Years at Hull House* both exemplifies Progressivist reasoning and rhetoric and characteristically remodels this rhetoric. This is done particularly through the ways in which Addams represents her own interactions with immigrants and here particularly with immigrant women.
