

Sprachpraxis Modules

Module Foundations Language Practice

SP1: Vocabulary and Pronunciation

This course aims to extend students' vocabulary and improve their pronunciation and spelling in order to improve their reading, writing and speaking skills.

Studienleistung: test

SP2: Grammar

This course allows students to revise and extend their knowledge of the usage of grammatical structures, style and vocabulary through an investigative approach.

Studienleistung: presentation

Prüfungsleistung: exam

Module Advanced Language Practice

SP3: Composition

This course investigates organisational patterns used in various genres and discourse forms of expository writing (informative/explanatory writing) and the relevant vocabulary for each form. Structure, paragraphing and style will be a focus. Some aspects of language and grammar will also be discussed as necessary.

Studienleistung: portfolio of written pieces

SP4: Advanced Composition

This course continues working on writing skills at a more advanced level. It will focus on further genres and discourse forms as well as more intensive improvement of style, register and vocabulary usage.

Studienleistung: portfolio of written pieces

Prüfungsleistung: exam

Module Language Practice Electives

This module consists of two courses. The course topics will vary each semester and may include geographical, cultural, and social aspects of various English-speaking countries or domains of English language usage. These courses may also be taken as

Schlüsselkompetenzen.

Studienleistung: various written and oral tasks

Prüfungsleistung: exam
